Re: Community Air Protection Grant Awards

Dear Jim Schaad,

The applications for stationary diesel emergency engine replacements and emergency vehicle replacement have been approved for funding in the amounts provided below. The replacement projects will be funded by the Community Air Protection Funds, allocated through Senate Bill (SB) 856 (Chapter 30, Statutes of 2018), which are Greenhouse Gas Reduction Funds from the California Cap-and-Trade Program. These funds are administered through the California Climate Investments (CCI) program. CCI is the overarching statewide program that puts Cap-and-Trade proceeds to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment – particularly in disadvantaged communities.

Stationary Engines Projects:

Type	Fuel	Number	Tentative Funding
Storm water pump engines	Diesel	3	3 @ \$80,580.00 (85% of estimated costs)
Generator	Diesel	1	\$44,018.00 (85% of estimated costs)
Stationary Engine Total			\$285,758.00

On-Road Project:

Make	Model	Tentative Award
Emergency Vehicle	Type 6	\$3,892.00

If you accept the tentative award amounts above and would like to participate in the Program, please contact Sondra Spaethe, Planning and Engineering Supervisor, at (530) 634-7659 ext 210 or sspaethe@fracmd.org.

The District looks forward to working with you to improve air quality in Yuba and Sutter counties.

Regards,

Christopher D. Brown, AICP
Air Pollution Control Officer
